

FREE WEBINAR

The Cost of Criminalization:

Substance Use Disorder and the Criminal Legal System

8.4.2021

12 - 1:30 PM (CT)

About the Webinar:

As public and professional opinion increasingly recognizes Substance Use Disorder (SUD) as a treatable medical condition, it has become important to evaluate how we approach the criminalization of substance use in our communities. Join us to discuss the need for strategies that prioritize treatment, rather than incarceration, for individuals struggling with drug dependence.
